#### I. Background

The Federal Government of Somalia (FGS) has made a public commitment to implementing a reform agenda intended to create public institutions that are transparent, accessible, accountable and trusted by its citizenry. Developing a functioning public administration that is able to deliver quality services to its citizens is a vision outlined in the National Development Plan (2017-2019), which articulates a commitment to strengthen how government works, to improve legal and policy development capacity, and to strengthen human resource management capacity, center of the government, and public finance management.

The Somali capacity injection project (CIP) is aimed at to strengthen basic government functions in support of the establishment of a responsive, inclusive and accountable civil service employees and public administration institutions by developing the capacity of the key cross-cutting government functions, Strengthening the policies and procedures for civil service management and strengthening Policy Management, Coordination and Capabilities at the Centre of Government.

In fulfilling this purpose, the project development objective is designed *to strengthen the staffing and institutional capacity of the selected line ministries and central agencies to perform core government functions*. Within this overall objective, the project has the following four key components:

- 1. Developing capacity for key cross-cutting government functions;
- 2. Strengthening the policies and procedures for civil service management;
- 3. Strengthening Policy Management, Coordination and Capabilities at the Centre of Government; and
- 4. Project Management.

#### The Project's expected Overall outcomes & indicators:

From these components, sub-components and activities, the project is expected the following outcomes: 1) Developed capacity of civil servants to perform key cross-cutting government functions (e.g. HR, procurement, FM and policy management) within targeted ministries and agencies, 2) Strengthened civil service management through the establishment of clear frameworks and

procedures; and 3) Improved policy coordination and monitoring capabilities at the center of government. The project's key outcome indicators in line with the expected outcome are: 1) Staff appointed to key positions through the Capacity Injection Modality (CIM) under the civil service commission, 2) Proportion of injected staff remaining in the public service, and 3) Change management plans developed and at least partially implemented.

The project coordination unit has organized mission meeting of the proposed project restructuring and extension, and the purpose of the meeting is to highlight the key major milestones that are remaining for the project to complete in regard to its intended objectives and to make projections in terms of timeframe and costs for the remaining major activities.

This report is quarterly report that covers the progress made on the third quarter of the 2019. The following sections of the report shall detail the achievements made in this quarter.

#### XII. CHALLENGES THAT REQUIRE URGENT ATTENTION

(Not more than 5 key challenges)

- 1) The drafted policies and procedures for the civil service managements has not been implemented due to lack of administrative regulations for the implementation of policies.
- 2) The completion of the contract for the long-term training program of SC with KSG.
- 3) To support and facilitate NCSC to organize and conduct hand-on training on performance monitoring for the HR supervisors at MDAs;
- 4) The delays of implementations due decision-making processes and obtaining approvals to ensure the ownership;

#### XIII. RECOMMENDATIONS

(Practical actions that need to be considered on the basis of implementation experience of the government team)

- 1) To develop immediately administrative regulation in order to implement the drafted policies and procedures.
- 2) The project to get an adequate time for the implementation of the key remaining milestones in order to prioritize activities of the project to deliver and achieve the intended results and objectives.
- 3) To expedite decision-making processes and approvals.
